

# New in the Belgian Luxembourg

« If they say so »

« With all the efforts we made, including the fitting out of several houses, the single visitor will be able to discover autonomously the site, at his rhythm. This does not substitute guided tours for groups. The Estate makes a perfect synthesis of nature and of authenticity for approaching the Ardennes, in a preserved place, nearly timeless. It is just what you need for having a nice parenthesis in the everyday-life, to be shared in family or with yours friends ».

Valérie Peuckert  
Manager

## (R)evolutions at the Domaine du Fourneau Saint-Michel estate

The Fourneau Saint-Michel gave itself a boost for opening its doors in 2014 with new prospects: a refitted reception center, restored houses, publication of a guide for the visitors, it has updated its website, its appellation has been revised, and it has joined the brand name «Ardenne»... There had to be a (r)evolution. It is impressive and it can only be profitable to this exceptional site.

### Two poles

The Fourneau Saint-Michel is a huge provincial estate located in the heart of the Saint-Hubert great forest massif, and it turns on two poles: the Iron Museum and the Open-air Museum. The second one has been conceived in 1970 and it extends on more than 40 hectares. It intends to recreate a group of hamlets by transplanting some characteristic examples of the rural architecture.

The effects of a solid plan of action are nowadays revealed. The window of reception has been modernized and it has been given a large "boutique" space. Six further houses have been set up with new thematic: textile, shop, death chamber... Each building has a small notice board with the basic information about its architecture. Three very attractive restaurants propose typical and authentic food.

### Nature and activities

The Nature pole is not outdone with partnerships for preserving flora and for livening up the estate with the arrival of countryside pedigree animals. Activities: some new activities with the feasts of music on June 21st and the continuous improvement of the well-known activities: « Tasting journey » on May 2nd, 5th edition of the « Mai'li Mai'lo » on May 31 and on the 1st of June, « Summer Sundays », among which « Les djins d'amon nos-ôtes » on the 21st of July, then, "Sunday in the forest" on September 21st, « evening gatherings in the Ardennes » on November 30th...

For apprehending the Ardennes,  
The estate achieves  
a perfect synthesis of nature  
and authenticity

Some other projects have been achieved with success: flyer, Guide of the visitor long 200 pages, 20 thematic sheets, and a website with a design more au contemporary. Aids for all the initiatives that (r)evolutionize this Domaine du Fourneau Saint-Michel estate, whose former name was « Musées », to (re)discover immediately !
